### **Agenda**

- **10 June event – practicalities**
  - JRA board meets at 11:30 at Apollonia Auditorium
  - Gift for the speakers:
    - Catering for 45 people
  
- **BSS - junior researchers on academic council**
  - Head of dept. appoints/approaches potential academic council members, and they usually find senior academics
  - Thus, there is a gap in terms of level of representatives on academic council - no JRs
  - Now there is space for 1 “observer” on the council for JRs
  - Health faculty example: academic council statutes need to be changed, to create a permanent solution - this would create for permanent representation for JRs, not just a temporary observer position
    - this should be done for all faculties
  - Solution: reelection of the AC JR representative every year
  - AC JR representation should be democratically elected - difficulties due to the low participation rate

- Who does JRA represent? All JRs + newsletter helps reach the members who sign up
- JRA open letter: send a reminder to faculties
  
- **15-16 June event – any action needed from JRA?**
  - All in order! nothing to do now
  - Someone from the JRA might join for the beginning of the event to promote JRA and say a short intro
  
- **Events for the autumn**
  - November: general assembly + talent development conference
    - Advertise, discuss on 10 June event
    - Panel debate with university management about JR work conditions, stress, uncertainties
    - Followed by general assembly activities
  
- **Emma taking over as student aid**
- **Other**
  - Next meeting: 18 August
